RT **@aheblog**: Welcome to this month's **#HEJC**. For links to the paper and some possible discussion points visit <http://t.co/ScdyIBGqFt>

Mon Jun 3 9:04:18 PDT 2013

ChrisSampson87

At 50 pages this month's paper is a long'n. Who out there has given it a read? Hoping I'm not alone! **#HEJC**

Mon Jun 3 9:09:46 PDT 2013

columbia_econ

Prof. Bentley MacLeod's discussion paper "Diagnosis and unnecessary procedure use: evidence from C-section" topic of discussion at the **#HEJC**

Mon Jun 3 9:10:46 PDT 2013

ChrisSampson87

Are we really talking about diagnostic skill here or is it prognostic skill? Is there a difference? **#HEJC**

Mon Jun 3 9:29:50 PDT 2013

ChrisSampson87

Seems this could be applied to any intervention where it's possible to stratify individuals based on risk and define an 'optimal' rate **#HEJC**

Mon Jun 3 9:33:24 PDT 2013

ChrisSampson87

Big implications for personalised medicine. But if risk-estimation is done by computers, diagnostic skill becomes irrelevant **#HEJC**

Mon Jun 3 9:35:55 PDT 2013

ChrisSampson87

Didn't really get from the paper how good the research is on estimating a woman's need for a c-section **#HEJC**

Mon Jun 3 9:38:53 PDT 2013

ChrisSampson87

Couldn't find if the paper showed the skill/distance trade-off was related to procedural skill or diagnostic skill #HEJC

Mon Jun 3 9:44:22 PDT 2013

ChrisSampson87

Different doctors might have very different decision rules: attach different weights to patient benefit and monetary gain #HEJC

Mon Jun 3 9:46:08 PDT 2013

ChrisSampson87

That increases in price always increase c-sections seems unrealistic. Doctors wouldn't do more c-sections if really bad for patients #HEJC

Mon Jun 3 9:48:31 PDT 2013

ChrisSampson87

use of NMB is confusing for someone more accustomed to net monetary benefit! #HEJC

Mon Jun 3 9:49:40 PDT 2013

ChrisSampson87

Not familiar with the Roy model etc. Do doctors do what's best for them or what's best for the patient? #HEJC

Mon Jun 3 9:52:55 PDT 2013

ChrisSampson87

appears to assume that physicians' behaviour is equally responsive to changes in skill to pecuniary changes #HEJC

Mon Jun 3 9:53:05 PDT 2013
